4. The Dawg House
5. Description : This website will serve as a dog adoption portal for the general public. The website will display different dogs available for adoption, for each dog users will be able to see information about their name, breed, size, location, etc. Users will also be able to leave and read reviews for each shelter as well as directly message shelters.
 

The website will also have other resources for adoption like articles/tips for caring for dogs, a small pet store and a quiz to match users with a dog breed.
6. Vision statement: Find every rescue dog a good home.
7. [https://github.com/SamDub21/CSCI3308\\_DogProject.git](https://github.com/SamDub21/CSCI3308_DogProject.git)
8. Dev methodology

Epics:

Epic: Dog Adoption Service		
Story: Allow adopters to browse dogs available for adoption and filter results to match their preferences	Story: Allow to adopters to read and write reviews about shelters and other providers	Story: Allow communication via email between a potential adopter and a shelter

Epic: Resources for Owners		
Story: Allow users to view items available for purchase on other websites and filter to match their preferences	Story: Provide adopters with a quiz to match them with a breed of dog that fits their personality, living situation, financial status, etc.	Story: Provide articles with information about adoption, breeds, tips and methods for caring for dogs, etc.

9. Communication Plan : Text messages

10. Meeting plan

- a. TA meetings: Monday 5:45 pm
